

- 50L tank for storage of a larger quantity of water and reduction of pump restarts.
- Alarm indicating any possible drop in tank pressure
- Protection against dry running and motor overheating
- Energy saving thanks to the efficiency of the hydraulic part
- Silent operation
- Made in Italy

Model: **EVO-MULTIPRESS**
340 50 DIGIPRESS
 Part number: **N5301252**
 Barcode: **7630046622176**

Booster with self-priming corrosion-free stainless steel pump for automatic watering and pressurising of domestic installations.

The electronic pressure switch with integrated digital pressure gauge DIGIPRESS ensures protection against dry running and motor overload.

When the device is disconnected due to a lack of water, it is programmed to automatically reset until the water supply is restored.

APPLICATIONS

House pressurization

Automatic irrigation

x 4

ABSORBED POWER	800 W	MAX. SUCTION DEPTH	8 m
VOLTAGE	230 V	TANK CAPACITY	50 L
FLOW RATE	5000 l/h	PROTECTION CLASS	IPX5
MAX. HEAD	45 m	POWER CABLE	1.5 m H05 RNF
RATED CURRENT	3.4 A	SUCTION/DELIVERY PORT	33.25 mm (1")
PUMP BODY	Stainless steel	WEIGHT:	18 Kg
N° IMPELLERS	4	PACKAGING DIMENSIONS	69.5 x 37 x 72 cm
TANK	Steel	PCS PER PALLET:	6
